Step 1: Overlap the new piece of clothesline about 2" - 3" over the piece of clothesline you want to lengthen. Cut a 1-2 yard piece of yarn. Thread yarn needle with yarn and insert through both pieces of clothesline.

Step 2: Wrap both pieces of clothesline tightly with the yarn about 5 times, then take another stitch through both pieces of clothesline. Continue doing this until you near the end of the new piece of clothesline.

Step 3: Knot securely, then run the yarn ends under the wraps to hide. Trim the ends of the clothesline.

Happy Crocheting!
