

# Jump Rope

## JUMP ROPE

Designed by Priscilla Hewitt  
Copyright © 2001 Priscilla's Crochet

### Materials:

- Your favorite variegated worsted weight acrylic yarn
- Crochet hook size H (5.00 mm)
- About 7 feet of 3/8" outside diameter clear vinyl tubing
- Two standard size (7 1/2" x 4.8 mm) cable ties
- 10 feet of 18 gauge or 20 gauge mechanic's wire
- Pliers

You will need an adult to help you with part of this project.

.....

With the crochet hook and the yarn, crochet a 7 foot long chain. Fasten off the yarn, leaving a 6" yarn tail. Cut the clear tubing a little shorter than the chain. You hold one end of the tubing while an adult feeds the mechanic's wire through it until the wire comes out at the end near you. Have the adult bend a tiny circle in the end of the wire. Tie the yarn tail around the wire circle. Pull the other end of the wire back through the tubing, pulling the yarn through the tubing with the wire until it is all the way through. Cut the yarn off of the wire. Fold the ends of the jump rope to form two loop handles. Fasten the loop closed with a cable tie.

Happy Crocheting!
