### Materials:

- ✓ Two of your favorite colors of worsted weight acrylic yarn
- ✓ Crochet hook size H (5.00 mm)
- ✓ About 7 feet of 3/8" outside diameter clear vinyl tubing
- ✓ Eight standard size (7 1/2" x 4.8 mm) cable ties
- ✓ Two feet of 18 gauge or 20 gauge mechanic's wire
- ✓ Pliers
- ✓ Two 2-liter soda bottles

.....  
You may need an adult to help you with parts of this project.

With the crochet hook and the yarn, crochet four 20" long chains, two of each color. Fasten off the yarn, leaving a 6" yarn tail. Cut the clear tubing into four 20" pieces. You hold one end of the tubing while an adult feeds the mechanic's wire through it until the wire comes out at the end near you. Have the adult bend a tiny circle in the end of the wire. Tie one of the yarn tails around the wire circle. Pull the other end of the wire back through the tubing, pulling the yarn through the tubing with the wire until it is all the way through. Cut the yarn off of the wire. Shape the tubing into a 5 1/2" circle, with the ends overlapping about 5". Fasten the ends of the tubing to the circle with a cable tie on each end. Make 3 more of these circles.

Fill the two 2-liter bottles with colored water or sand or little stones to weigh it down. Try to throw the rings over the bottles.

Happy Crocheting!
