

Tube Bracelet

TUBE BRACELET

Designed by Priscilla Hewitt

Copyright © 2001 Priscilla's Crochet

Materials:

- A pretty color of worsted weight acrylic yarn
- Crochet hook size H (5.00 mm)
- About 12 inches of 3/8" outside diameter clear vinyl tubing
- One standard size (7 1/2" x 4.8 mm) cable tie
- 12 inches of 18 gauge or 20 gauge mechanic's wire
- Pliers

You will need an adult to help you with part of this project.

.....

Cut the plastic tubing so that it fits very loosely around your wrist. With the crochet hook and yarn, make a chain the same length as the tube. Have an adult feed the mechanic's wire through the tubing until the wire comes out the other end. Have the adult bend a tiny circle in the end of the wire. Tie one of the yarn tails around the wire circle. Pull the other end of the wire back through the tubing, pulling the yarn through the tubing with the wire until it is all the way through. Cut the yarn off of the wire. Overlap the ends of the tubing and fasten tightly with a cable tie.

Happy Crocheting!
